KOREAN UNIVERSITY
FULL-SCHOLARSHIP COMPETITION

SCHOLARSHIP OVERVIEW

The Korea University of Technology and Education (KoreaTech) designed the Global Engineering and Technology (GET) scholarship program in response to the global demands of business and industry. The scholarship covers all tuition costs for the duration of the degree (4 years). The goal is to produce outstanding engineers with international skills and experience who, after graduation, can return to their home country to promote technological education. In addition to the scholarship, the university gives students the opportunity to work part-time on-campus as cultural activity assistants to cover their food and dormitory costs.

AVAILABLE MAJORS

- **Mechanical Engineering**
  Curriculum includes courses related to mechanics and robotics

- **ICT (Information & Communication Technology)**
